

Curriculum Vitae
LISA HARNACK, DrPH, RD

Division of Epidemiology
School of Public Health
University of Minnesota
1300 South 2nd Street, Suite 300
Minneapolis, MN 55454-1015
Phone: (612) 626-9398
Fax: (612) 624-0315
E-mail: harnack@epi.umn.edu

EDUCATION

1996 Post-Doctoral Fellowship, Division of Epidemiology,
University of Minnesota, Minneapolis, MN

1996 Doctorate in Public Health, School of Public Health,
University of California at Berkeley, Berkeley, CA

1993 Masters in Public Health, School of Public Health,
University of California at Berkeley, Berkeley, CA

1989 Internship in Dietetics, Yale New Haven Hospital,
New Haven, CT

1988 Bachelor of Science in Dietetics, University of Wisconsin at Stout,
Menomonee, WI

1986 Associate of Arts, Rochester Community College
Rochester, MN

ACADEMIC AND PROFESSIONAL EXPERIENCE

2010- present Professor, Division of Epidemiology, School of Public Health,
University of Minnesota, Minneapolis, MN

2015 - present Co-Director, Healthy Weight Research Center, Division of Epidemiology and Community
Health School of Public Health, University of Minnesota, Minneapolis, MN

2007-present Director, Nutrition Coordinating Center, Division of Epidemiology,
School of Public Health, University of Minnesota, Minneapolis, MN

2003-2010 Associate Professor, Division of Epidemiology, School of Public Health,
University of Minnesota, Minneapolis, MN

1998-2007 Assistant Director, Nutrition Coordinating Center, Division of Epidemiology,
School of Public Health, University of Minnesota, Minneapolis, MN

1998-2003 Assistant Professor, Division of Epidemiology, School of Public Health,
University of Minnesota, Minneapolis, MN

1996-1998 Research Associate, Division of Epidemiology, School of Public Health,
University of Minnesota, Minneapolis, MN

1994-1996 Research Assistant, School of Public Health, University of California,
Berkeley, CA

1993-1994 Teaching Assistant, School of Public Health, University of California,
Berkeley, CA

1992 Hunger and Nutrition Fellow, California Rural Legal Assistance Foundation,
San Francisco, CA

1989-1991 Clinical Dietitian, Mayo Medical Center, Rochester, MN

PUBLICATIONS

Peer-Reviewed Articles (a senior author, b student/trainee advisee)

2021

1. Al-Shaar L, Yuan C, Rosner B, Dean SB, Ivey KL, Clowry CM, Sampson LA, Barnet JB, Rood J, **Harnack LJ**, Block J, Manson JE, Stampfer MJ, Willett WC, Rimm EB. Reproducibility and validity of a semi-quantitative food frequency questionnaire in men assess by multiple methods. *American Journal of Epidemiology*. 2021 26(1-30) (epub ahead of print).
2. Loth KA, Fertig A, Trofholz A, **Harnack L**, Crosby R, Neumark-Sztainer D, Berge JM. Concordance of children's intake of selected food groups as reported by parents via 24-h dietary recall and ecological momentary assessment. *Public Health Nutrition*. 2021 24(1):22-33.
3. bValluri S, Mason SM, Peterson HH, French SA, **Harnack LJ**. Trends in cyclical food expenditures among low-income households receiving monthly nutrition assistance: results from a prospective study. *Public Health Nutrition*. 24(3):536-543. PMID: PMC7855890.

103. Abrams B, Carmichael S, Selvin S, **Harnack L**. Maternal weight gain by pregnancy trimester: Description by maternal and fetal characteristics. FASEB Annual Meeting. Anaheim, California, April 1994.

Invited Presentations

1. "Changes to Nutrition Data System for Research (NDSR) to meet emerging needs of researchers." National Nutrient Databank Conference, Minneapolis, MN July 2019.
2. "What does the Science Say about the Impact of SNAP and Strategies for Improving Health?" The Obesity Society (TOS) ObesityWeek Nashville, TN 2018.
3. "Do SNAP Prohibitions and Subsidies Improve Nutrition? A Randomized Trial." Harvard Nutrition Seminar. Boston, MA 2017.
4. "Do SNAP Prohibitions and Subsidies Improve Nutrition? A Randomized Trial." The Obesity Society (TOS) ObesityWeek New Orleans, LA November 2016.
5. "Restrictions and incentives on specific foods and beverages in food benefit programs: an experimental trial." Obesity Prevention Center Annual Symposium, Minneapolis, MN. April 2014
6. "Evaluation of healthy SNAP food guidelines on food purchase and dietary intake: a randomized trial." The Obesity Society (TOS) ObesityWeek. Boston, MA. November 2014.

7. "Potential for food and nutrient databases and dietary survey data to aid in foodborne illness outbreak investigations." Society for Epidemiologic Research Annual Meeting. Minneapolis MN. June, 2012.
8. "Optimal measurement strategies for the assessment of food intake in young children in child care settings." Defining a Research Agenda for Healthy Weight Development through Child Care Settings. Washington DC. September, 2011.
9. "Calorie labeling on restaurant menus: A useful public health strategy for obesity prevention?" Society for Ingestive Behavior Annual Meeting. Clearwater, FL. July, 2011.
10. "Impact of using nutrition labeling." University of Kansas Center for Physical Activity & Weight Management 12th Annual Obesity Conference. Overland Park, KS. September, 2010.
11. "Whole grains dietary intake: Challenges of calculating/ imputing whole grain values". Health Benefits Associated with Whole Grains. An Experimental Biology 2010 Satellite Symposium. Anaheim, CA. April 2010.
12. "Effect of point-of-purchase calorie labeling on fast-food restaurant menus: Results from Minnesota." The Obesity Society 2009 Annual Scientific Meeting. Washington D.C. October 2009.
13. "The American diet: Is it heading in the right direction?" University of Wisconsin Madison. Madison, WI. March, 2009.
14. "Intervention-related bias in diet and physical activity reporting: How to prevent it and what to do if it happens". Healthy Eating Research 3rd Annual Grantee Meeting. St. Paul, MN. 2008.
15. "Reliability and validity of brief tools to assess diet and physical activity of middle school aged children: results from the eating and activity survey trial." Centers for Disease Control and Prevention Division of Nutrition and Physical Activity. Atlanta, GA. 2005.
16. "Reliability and validity of brief tools to assess diet and physical activity of middle school aged children: results from the eating and activity survey trial." Centers for Disease Control and Prevention, Division of Nutrition and Physical Activity Monthly National Teleconference. 2005.
17. "Creating a healthy eating environment in the workplace." 2004 Midwest Worksite Health Promotion Conference. Bloomington, MN. 2004.
18. "Effect of nutrition labeling on fast food choices." Minnesota Obesity Center-wide Retreat. Minneapolis, MN. 2004.
19. "Dietary assessment of pregnant and postpartum women." National Maternal Nutrition Intensive Course. Minneapolis, MN. 2004.
20. "Research perspective on grain consumption and market issues." Understanding Demand Shifts for Grain-Based Foods. A workshop sponsored by USDA's Economic Research Service and the Farm Foundation. Minneapolis, MN. 2004.
21. "Trans-fatty acids: health impacts, current recommendations, and food sources." Twin Cities District Dietetic Association meeting. Eagan, MN. 2004.
22. "Trends in beverage consumption among U.S. children and adolescents." California Childhood Obesity Conference. San Diego, CA. 2003.
23. "Nutritious beverage consumption among young people in the United States: Trends and possible consequences." CDC National conference on Chronic Disease Prevention and Control. Atlanta, GA. 2002.
24. "Dietary supplements in the University of Minnesota Nutrition Coordinating Center (NCC) Food and Nutrient Database." Assessment of Dietary Supplement Use Workshop on Database Needs. Bethesda, MD. 2001.
25. "Brief tools to assess diet and physical activity of middle school aged children." Food Assistance and Nutrition Research Program Expert Panel Meeting. USDA. Washington DC. 2001.
26. "Database design strategies to facilitate flexible food grouping." 24th National Nutrient Databank Conference. St. Paul, MN. 2000

27. "Dietary assessment of pregnant and breastfeeding women: What tools to use?" National Maternal Nutrition Intensive Course. University of Minnesota. Minneapolis, MN. 1999.

Memberships in Professional Societies

Academy of Nutrition and Dietetics
American Society for Nutritional Sciences

Grants and Contracts

Principal Investigator

Title: Evaluation of the Nutritional Quality of the Emergency Meals-to-You Program
Funding: USDA through a subcontract with Baylor
Purpose: Evaluation of the nutritional quality of the food provided through the eMTY program that provides breakfast and lunches to students who temporarily cannot receive school meals due to emergency school closure.
Period: 09/01/20-06/30/21

Title: WHNRC Fiber Intervention Study
Funding: USDA through a subcontract with the University of California Davis
Purpose: Collect 24-hour dietary recalls over the telephone for a trial examining the effect of dietary fiber on health outcomes.
Period: 07/01/20-06/30/23

Title: Women's Study to Alleviate Vasomotor Symptoms
Funding: Physicians Committee for Responsible Medicine
Purpose: Enter food records into NDSR for nutrient analysis for a trial examining the effect of diet on women's vasomotor symptoms.
Period: 11/01/20-04/30/21

Title: Evaluating the Implementation and Scale-up of Nigeria National Sodium Reduction Program
Funding: NIH through a subcontract with the Abuja Teaching Hospital
Purpose: Develop protocols for collecting and entry of dietary recalls in a nutrient analysis program for assessing the sources of sodium in the diets of Nigerian adults. Train staff at Abuja Teaching Hospital on the dietary recall collection and entry protocols.
Period: 09/15/20-08/31/21

Title: Effects of Subsidies and Prohibitions on Household Nutrition in a Food Benefit Program
Funding: Laura and John Arnold Foundation
Purpose: Evaluate whether prohibiting the purchase of sugar sweetened beverages, sweet baked goods and candies with food program benefits may improve the nutritional quality of foods purchased and consumed by program participants, especially when paired with a financial incentive to encourage the purchase of fruits and vegetables.
Period: 09/01/17-12/31/20

Title: Dietary Etiologies of Heart Disease
Funding: NIH through a subcontract with Harvard University
Purpose: Add lignin intake estimates to food records collected as part of the Lifestyle Validation so that associations of lignans with risk for cardiovascular disease may be examined.
Period: 03/16/17-04/30/20

Title: Effects of Myelin-Relevant Nutrients in Infant Formula
Funding: Nestle through a sub-contract with INC Research
Purpose: Enter food records into NDSR for nutrient analysis for a study evaluating the effect of myelin-relevant nutrients in infant formula on child neurological development.
Period: 01/01/17-12/31/20

Title: Evaluating a Healthy Restaurant Kids Meal Policy
Funding: NIH through a subcontract with Johns Hopkins University
Description: Study the effects of a healthy restaurant kids' meals policy on children's restaurant meal orders and dietary intake, and measure the policy's implementation costs, reach, and cost-effectiveness if implemented nationwide over ten years.
Period: 08/01/19-07/31/23

Title: FITS Research Partnership in Brazil

Funding: RTI through a contract with Nestec
 Description: Develop dietary recall collection and entry procedures; add Brazilian foods to Nutrition Data System for Research (NDSR) for the study; train staff in dietary recall entry; and carry out quality assurance on a sub-set of dietary recalls collected in the study.
 Period: 01/16/18-01/07/20

Title: Obesity Prevention Center: Lending Library for Nutrition Data System for Research with Online Training
 Funding: University of Minnesota Office of the Vice President for Research
 Description: Fortify the Obesity Prevention Center Lending Library to better support the dietary assessment needs of Center researchers by purchasing additional laptops, upgrading NDSR software, and developing online training for dietary recall collection using NDSR.
 Period: 07/11/18-06/30/19

Title: The No Kid Hungry Social Innovations Campaign Evaluation
 Funding: RTI through a contract with Feeding America
 Description: Train research staff in the procedures for collecting 24-hour dietary recalls using Nutrition Data System for Research (NDSR). Also, collect 24-hour dietary recalls from some study participants and carryout quality assurance on all of the recalls collected for the study.
 Period: 07/01/18-01/28/19

Title: Dietary Approaches to Treat Multiple Sclerosis-Related Fatigue Study
 Funding: National Multiple Sclerosis Society through a subcontract with the University of Iowa
 Purpose: Enter food records into NDSR for nutrient analysis for a trial evaluating whether a low saturated fat diet or a modified paleo diet reduce fatigue in those with multiple sclerosis.
 Period: 12/1/17 - 05/30/20

Title: Designing Online Grocery Shopping Marketplaces to Support Americans who are trying to Eat Healthy for Weight Loss
 Funding: Hawley Award, Division of Epidemiology and Community Health, University of Minnesota
 Purpose: Generate ideas for features that may be included in online grocery marketplaces to support healthy food choices by those trying to lose weight, and describe the extent to which leading national and regional online grocery shopping marketplaces (e.g. AmazonFresh, Walmart, Safeway, etc.) currently include nutrition-related features such as Nutrition Facts panel information, search filters by nutrient content of food, 'specialty diet' sections, etc.
 Period: 03/01/18-02/28/19

Title: Dietary Data Support for the Environmental Determinants of Diabetes in the Young (TEDDY) Study
 Funding: NIH through a subcontract with the University of South Florida
 Purpose: Identifying ingredients and their proportion in multi-ingredient foods consumed by TEDDY participants.
 Period: 06/01/11 - 12/31/19

Title: Addition of Gluten to LVS Food Records
 Funding: American Gastroenterological Association through a subcontract with Columbia University
 Purpose: Add gluten intake estimates to food records collected as part of the Lifestyle Validation study so that the association of gluten with gastrological outcomes may be examined.
 Period: 11/01/16-05/31/17

Title: U of MN Obesity Prevention Center Lending Library of Research Equipment, Software, and Protocols
 Funding: U of MN Office of Vice President of Research
 Purpose: Fortify the equipment, software, and protocol library the Obesity Prevention Center provides to U of MN faculty and students carrying out obesity prevention related research.
 Period: 07/01/16-06/30/17

Title: U of M Food and Nutrient Database API to Support mHealth, teleHealth, and wearableHealth applications
 Funding: NIH through University of Minnesota MNREACH grant
 Purpose: Make the U of M Food and Nutrient Database more readily accessible to those developing mHealth, telehealth, and wearableHealth applications.
 Period: 11/01/15-12/31/16

Title: Feeding Infants and Toddlers Study
 Funding: Nestle through a sub-contract with RTI

Purpose: Collect 24-hour dietary recalls for a survey to assess food and nutrient intake of infants and toddlers in the US.
 Period: 10/24/14 – 04/30/17

Title: Designing a Food Benefit Program to Optimize Diet Quality for Obesity Prevention.
 Funding: NIH
 Purpose: Evaluate whether prohibiting the purchase of foods high in discretionary calories with Supplemental Nutrition Assistance Program (SNAP) benefits may improve the nutritional quality of foods purchased and consumed by program participants, especially when paired with an incentive to encourage the purchase of more nutritious foods.
 Period: 04/20/13 – 03/31/18

Title: Behavioral Family Systems Therapy for Teens with Type 2 Diabetes: A Pilot Grant
 Funding: NIH through a sub-contract with the N.E.I. du Pont de Nemours and Company
 Purpose: Collect 24-hour dietary recalls over the telephone from participants in a type 2 diabetes control trial.
 Period: 01/24/11 - 07/31/16

Title: Updating Nutrient Values and Cooking Yield Data for Beef
 Funding: National Cattlemen's Beef Association
 Purpose: Update nutrient values and cooking yields for beef in the NCC Food and Nutrient database.
 Period: 10/01/14 - 06/30/15

Title: Addition of Heme Iron to the Singapore Chinese Health Study
 Funding: NIH through a subcontract with the University of Pittsburgh
 Purpose: Assign heme iron values to foods in the food frequency questionnaire used for the Singapore Chinese Health Study.
 Period: 08/01/14 - 12/31/14

Title: Pilot Evaluation of a Novel Program to Improve the Nutritional Quality of Household Food Purchasing and Consumption
 Funding: U of MN Obesity Prevention Center
 Purpose: Assess level of use and characteristics of those using the Healthy Savings Program.
 Period: 07/01/14 - 06/30/15

Title: California Children's Healthy Eating and Exercise Practices Survey.
 Funding: USDA through a sub-contract with Fleishman-Hillard
 Purpose: Collect 24-hour dietary recalls over the telephone from children in California.
 Period: 12/01/12 – 09/30/13

Title: Do You See What I See? Eye Tracking of Parent/Child Pairs During Food Selection
 Funding: Robert Wood Johnson Foundation Healthy Eating Research Program
 Purpose: Compare various front of package nutrition labeling formats with regard to the extent to which each aids children and adults in making more nutritious food purchases in a supermarket setting.
 Period: 11/15/11-05/14/13

Title: Evaluation of the Nutritional Quality of Food Donations to the Emergency Foodshelf Network
 Funding: University of Minnesota Center for Urban and Regional Affairs
 Purpose: Evaluate the nutritional quality of foods donated by private citizens to the Emergency Foodshelf Network using the Dietary Guidelines for Americans as the benchmark.
 Period: 07/01/12-06/30/13

Title: Reducing Solid Fat and Added Sugar Intakes in Low-Income Preschoolers through Environmental and Behavioral Portion Size Strategies
 Funding: USDA through a sub-contract with Temple University
 Purpose: Evaluate parent-centered program designed to reduce solid fat and added sugar intake of low-income preschoolers.
 Period: 08/01/12-07/31/16

Title: Addition of User Defined Nutrient Priority Preference to FoodCalc
 Funding: Griffin Hospital (Yale Griffin Prevention Research Center)
 Purpose: Add a new feature to NCC's Food Calculation program that allows the user to select nutrients to be used in generating food formulations.
 Period: 02/01/12- 12/15/12

Title: Addition of Grains in Ounce Equivalents to Nutrition Data System for Research (NDSR)
 Funding: General Mills Bell Institute of Health & Nutrition
 Purpose: Add total grains, whole grains, and non-whole grains in ounce equivalents to the NCC Food and Nutrient Database so that researchers using NDSR may estimate grain intake in these units of measure.
 Period: 05/15/12-05/14/13

Title: Aggregation of NDS-Ingredient Data for the INTERMAP Study Dataset
 Funding: NIH through a subcontract with Northwestern University
 Purpose: Calculate glycemic index, glycemic load, and intake of various food groups for dietary recall data collected in the past.
 Period: 07/01/12 – 06/30/13

Title: Designing a Food Benefit Program to Optimize Diet Quality for Obesity Prevention: Pilot Study
 Funding: University of Minnesota Obesity Prevention Center
 Purpose: Pilot procedures for an experimental trial to be conducted to evaluate two strategies for improving the nutritional quality of the diets of participants in a food benefit program such as the Supplement Nutrition Assistance Program (SNAP).
 Period: 07/01/12- 05/31/13

Title: Men's Lifestyle Validation Study
 Funding: NCI through a sub-contract with Harvard University
 Purpose: Conduct data entry and quality control on food records collected from men participating in a study to evaluate the validity of the Automated Self-Administered 24-hour Dietary Recall System (ASA24), a newly available dietary assessment tool developed by the National Cancer Institute.
 Period: 09/29/10-08/31/13

Title: Yale Griffin Prevention Research Center – Nutrition Data System for Research (NDSR)
 Funding: Griffin Hospital (Yale-Griffin Prevention Research Center)
 Purpose: Add foods to the NCC Food and Nutrient Database for use by Yale Griffin in creating NuVal(Nutritional Value) scores for commercial food products
 Period: 02/1/2012 – 07/1/12

Title: Validity of Diet and Activity Measures in Women
 Funding: National Cancer Institute through a sub-contract with Harvard University
 Purpose: Conduct data entry and quality control on food records collected from women participating in a study to evaluate the validity of the Automated Self-Administered 24-hour Dietary Recall System (ASA24), a newly available dietary assessment tool developed by the National Cancer Institute.
 Period: 09/30/09-09/29/12

Title: Evaluating U.S. Children's Food Purchases and Caloric Intake to Gauge the Food Industry's Impact
 Funding: Robert Wood Johnson Foundation through a sub-contract with the University of North Carolina Chapel Hill
 Purpose: Provide information needed to understand the NCC Food and Nutrient Database.
 Period: 06/15/11 – 01/13/12

Title: Evaluation of Nutritional Quality of Food in Backpack Program
 Funding: Feeding America
 Purpose: Evaluate the nutritional quality of menus from a sampling of Food Banks participating in the Backpack Program, a program designed to ensure children from food insecure households have nutritious foods to eat on days school is not in session.
 Period: 10/01/11-12/31/11

Title: California Children's Healthy Eating and Exercise Practices Survey
 Funding: California Department of Health through a sub-contract with the Network for a Healthy California, Public Health Institute
 Purpose: Collect 24-hour dietary recalls over the telephone from children participating in the California Children's Healthy Eating and Exercise Practices Survey.
 Period: 05/01/11-09/30/11

Title: Effect of National Mandatory Point-of-Purchase Calorie Labeling on Fast Food Menu Offerings
 Funding: Robert Wood Johnson Foundation Healthy Eating Research Program

Purpose: Examine trends in the calorie content of restaurant menu items at 10 leading fast food restaurant chains from 1997-2010.
 Period: 11/15/10-05/14/12

Title: Effectiveness of Mississippi Delta Women's Social Club Member Adopting Dietary Guidelines
 Funding: USDA through a sub-contract with the University of Southern Mississippi
 Purpose: Collect 24-hour dietary recalls over the telephone from participants in a behavioral intervention trial.
 Period: 01/10/11-06/30/11

Title: Behavioral Family Systems Therapy for Teens with Type 2 Diabetes: A Pilot Grant
 Funding: NIH through a sub-contract with the N.E.I. du Pont de Nemours and Company
 Purpose: Collect 24-hour dietary recalls over the telephone from participants in a type 2 diabetes control trial.
 Period: 04/01/11-07/31/15

Title: Integrated Sensor Technology for Real-Time Recording of Diet
 Funding: NIH through a subcontract with Fred Hutchinson Cancer Research Center
 Purpose: Facilitate data entry and analysis of dietary data collected using a new device (Dietary Data Recorder) to be developed to facilitate recording of food and beverage intake.
 Period: 01/16/10-12/31/13

Title: Food and Nutrition Systems for Research
 Funding: NIH
 Purpose: Continued support for the maintenance and enhancement of the Nutrition Data Systems for Research (NDS-R) software and the University of Minnesota Nutrition Coordinating Center (NCC) Food and Nutrient Database.
 Period: 05/08/09-02/28/14

Title: Evaluating two Meal Service Strategies for Moderating Energy Intake of Preschool-aged Children
 Funding: Robert Wood Johnson Foundation Healthy Eating Research Program
 Purpose: Evaluate two child feeding strategies for moderating energy intake of preschool-aged children in childcare centers.
 Period: 09/01/08-02/28/10

Title: Feeding Infants and Toddlers Study '08 (FITS '08)
 Funding: Gerber through a subcontract with Mathematica Policy Research Inc.
 Purpose: Assist in protocol develop, and collect 24-hour dietary recalls over the telephone for participants in a survey to assess food and nutrient intake of infants and toddlers in the U.S.
 Period: 02/22/08-02/21/09

Title: The Lutein/Zeaxanthin and Omega-3 Supplementation Trial
 Funding: NEI through a subcontract with EMMES Corporation
 Purpose: Aid in the selection, validation, and processing of a food frequency questionnaire to be used to evaluate the diets of participants in a trial of lutein/zeaxanthin and Omega-3 fatty acid supplements for eye health.
 Period: 10/01/05-03/31/13

Title: Effect of Nutrition Labeling on Fast Food Choices
 Funding: NIDDK
 Purpose: The primary aim of this study is to determine whether the provision of nutrition information on a fast food restaurant menu results in the selection and consumption of lower calorie and lower fat meals.
 Period: 03/01/05-02/28/09

Title: Development and Evaluation of a Dietary Recall Questionnaire
 Funding: University of Minnesota Cancer Center Prevention and Etiology Program
 Purpose: To develop and evaluate a 24-hour dietary recall questionnaire that may be self-administered, requires no more than 15 minutes to complete, and may be optically scanned or key entered.
 Period: 04/01/06-09/30/06

Title: Impact of Nutrition Labels on Fast Food Choices
 Funding: University of Minnesota Obesity Prevention Center
 Purpose: Survey McDonald's patrons to evaluate the extent to which nutrition labeling at this restaurant chain is noticed and used by consumers in making food choices.
 Period: 12/01/05-11/30/06

Title: Effect of Mini Food Product Portion Sizes on Consumption
Funding: Minnesota Medical Foundation
Purpose: Examine the effect of small food product portions on food consumption relative to medium and large portions among elementary school-aged children.
Period: 02/01/05-01/31/06

Title: 5-A-Day Preschool Power Plus
Funding: NCI through a subcontract with the Minnesota State Department of Health
Purpose: Aid in the collection and analysis of evaluation data for 5-A-Day Preschool Power Plus, a study aimed at developing and evaluating an intervention for increasing fruit and vegetable intake of preschool-aged children.
Period: 09/01/04-8/31/06

Title: Effect of Nutrition Labeling on Fast Food Choices: A Pilot Study
Funding: Minnesota Obesity Center Epidemiology and Intervention Core
Purpose: Pilot procedures for study to examine effect of point of purchase calorie labeling and value size pricing on fast food meal choices.
Period: 07/01/2003-06/30/2004

Title: Women's Health Initiative: Nutrition Data Center
Funding: NCI through subcontract with the Fred Hutchinson Cancer Research Center
Purpose: Provide a comprehensive food and nutrient database for use in analyzing food frequency questionnaire data collected as part of the Women's Health Initiative.
Period: 09/30/92-09/29/04

Title: Beverage Consumption of Middle School Aged Children: Health and Assessment Issues
Funding: Dairy Management Incorporated
Purpose: Examine the association of beverage intake to overweight among children; evaluate the validity and reliability of a brief set of questions designed to assess children's beverage intake.
Period: 01/01/03-12/31/04

Title: Tools to Assess Nutrition and Physical Activity of Youth
Funding: Centers for Disease Control and Prevention & Association of Schools of Public Health
Purpose: Develop valid and reliable nutrition and physical activity assessment tools that may be used in surveillance systems to monitor health behaviors of youth in grades 6-8.
Period: 10/01/00-09/30/03

Title: Trends in Trans-Fatty Acid Intake Between 1980 and 1997
Funding: NHLBI
Purpose: Examine temporal trends in trans-fatty acid intake between 1980 and 1997 using dietary data collected as part of the Minnesota Heart Survey.
Period: 04/01/00-03/31/02

Title: Lakota Food Security and Obesity Study
Funding: Minnesota Obesity Center Obesity Core
Purpose: Document the prevalence of food insecurity among the Lakota Indians and examine the relationship of food insecurity to obesity.
Period: 04/01/00-08/31/00

Title: Database Support for the INTERMAP Study
Funding: NHLBI through subcontract with Northwestern University
Purpose: Provide database support for INTERMAP, a study designed to investigate associations between dietary factors and blood pressure in adult men and women in four countries.
Period: 06/01/95-05/31/00

Title: Use of Botanicals Among Adults in the Minneapolis/ St. Paul Metropolitan Area
Funding: Minnesota Medical Foundation
Purpose: Document the prevalence of use of herbal products among adults in the Minneapolis/ St. Paul Metropolitan area.
Period: 02/01/99-01/31/00

Co-investigator

Title: Maternal Obesity, Breast Milk Consumption, and Infant Growth

Funding: NIH R01 (R01HD080444)
 Description: Expand understanding of the effects of human of breast milk variation in bioactives on child growth from birth to age 5 years.
 Period: 03/01/20-02/28/25

Title: The Roles of Acculturation and Media in the Nutrition of Immigrant and Refugee Families
 Funding: UMN/CHED Seed Grant
 Description: Examine the association between 3D acculturation, media/advertising literacy, and nutrition at the individual, family, and community levels among Somali refugees in Minneapolis and Jamaican immigrant in Miami.
 Period: 02/20/20-01/31/22

Title: Prolonged Daily Fasting as a Viable Alternative to Caloric Restriction in At-Risk Obese Humans
 Funding: NIH R01 (R01DK124484)
 Description: Evaluate whether time restricted eating (TRE) with *ad libitum* intake alters caloric intake and whether the prolonged fasting associated with TRE may provide additional benefits beyond traditional caloric reduction in the treatment of obesity.
 Period: 04/01/20-12/31/23

Title: Examining Validity and Sensitivity of Pressure-mediate Reflection Spectroscopy as a measure of fruit and vegetable consumption in a diverse community.
 Funding: NIH R01 (R01HL142544) through a subcontract with East Carolina University
 Description: Evaluation of the validity of a non-invasive approach to measuring fruit and vegetable intake in racially diverse populations.
 Period: 06/01/19-05/31/23
 Role: Co-Investigator

Title: A Natural Experiment Evaluation the Effect of a Minimum Wage Increase on Obesity and Diet related Outcomes
 Funding: NIH R01 (R01DK118664)
 Description: At present, millions of workers in the United States earn the federal minimum wage of \$7.25 or less. Low-income individuals are at an increased risk for obesity and related chronic diseases; raising the minimum wage has the potential to affect obesity by reducing many of its risk factors. In this natural experiment the effect of an increase in the local minimum wage on changes in obesity-related risk over 5 years will be evaluated.
 Period: 04/01/18-03/31/23
 Role: Co-Investigator

Title: SNAP and work-related policies: An in-depth analysis of low-wage worker perspectives and behaviors
 Funding: Tufts/UConn RIDGE Program
 Purpose: An in-depth analysis of low-wage workers related to SNAP and work-related policies. The aims are to: (1) to understand perspectives about current and future eligibility for SNAP benefits in two policy contexts (Minneapolis, MN and Raleigh, NC), and (2) to explore how, if at all, these perspectives affect decisions regarding household employment, major asset purchases, and savings.
 Period: 07/01/19-06/30/20
 Role: Co-Investigator

Title: Impact of the Minneapolis Staple Foods Ordinance in Healthy Food Availability
 Funding: NIH R01 (R01DK104348)
 Description: The proposed study will explore how food access and purchasing in corner stores as the result of a food staple ordinance in Minneapolis.
 Period: 12/01/14 - 11/30/18
 Role: Co-Investigator

Title: Impact of a Local Food Ordinance on Healthy Food Access
 Funding: [Special Interest Project of the UMN Prevention Research Center] (3U48DP005022-01S1)
 Description: This funding is to support a collaborating center of NOPREN (Nutrition and Obesity Policy Research and Evaluation Network) of CDC. This project will evaluate the impact of a staple food ordinance on environmental and health disparities in the City of Minneapolis.
 Period: 09/30/14-09/29/16
 Role: Co-Investigator

Title: Maternal Obesity, Breastmilk Composition, and Infant Growth
 Funding: NIH/NICHHD (R01 HD080444)

Description: The objective of this project is to test the lactational programming hypothesis in humans; that is, to assess 1) whether key appetite and satiety regulating hormone levels and adipocytokine levels are altered in the breastmilk of obese women, and 2) whether concentrations of these breastmilk factors are associated with the increased rate of adipose tissue gains seen in offspring of obese mothers. We will examine modifying effects of gestational weight gain and post-partum weight loss on these outcomes, and whether maternal diet and exercise during pregnancy and lactation may alter associations.

Period: 7/10/14-5/31/19
Role: Co-Investigator

Title: Improving High School Breakfast Environments
Funding: NIH
Purpose: The goals of this intervention study are to implement best practice strategies to expand and promote the School Breakfast Program in rural schools (SBP) and test the impact upon 1) student participation rates, based on reimbursable meals served, 2) overall student caloric intake and diet quality and 3) body mass index and percent body fat.

Period: 02/08/13 -01/31/17
Role: Co-Investigator

Title: Assessment of Sodium Intake from a Variety of Sources
Funding: CDC
Purpose: The primary objective of this study is to assess the proportion of total sodium intake that comes from sodium added to processed and restaurant foods among US adults based on accurate assessment of sodium intake from foods and beverages (including water), discretionary salt, supplements and antacids.

Period: 08/27/12-08/27/15

Title: Effects of the Supplemental Nutrition Assistance Program (SNAP) on Food Spending: A Meta-Analysis
Funding: University of Minnesota Food Policy Research Center
Purpose: Conduct a meta-analysis to evaluate whether restricting the set of foods SNAP program participants may purchase positively influences food and nutrient intake of program participants.

Period: 04/01/13-10/31/13

Title: Developing Research Capacity to test Behavioral Economic Intervention in Child Nutrition Programs.
Funding: USDA
Purpose: Build a collaborative team with diverse backgrounds and pursue experimental studies in child food service settings that apply behavioral economic strategies to improve child nutrition.

Period: 10/1/10-07/31/11

Title: Etiology of Childhood Obesity (ECHO)
Funding: NIH
Purpose: To examine the etiology of childhood obesity using a socio-ecological approach considering possible risk and protective factors at individual, family, school and neighborhood levels.

Period: 09/01/06-05/31/11

Title: Observational Ratings of Child feeding Practices among Preschoolers
Funding: Obesity Consortium of Minnesota
Purpose: Comprehensively assess child feeding practices currently used by parents of at-risk preschoolers and develop a methodology that can be used to eventually test which child feeding practices are most effective in preventing excess weight gain among children.

Period: 09/01/08-08/31/10

Title: Molecular Epidemiology of Colorectal Cancer subtypes
Funding: NIH through a subcontract with the Mayo Clinic
Purpose: Determine risk factors for molecularly defined colorectal cancers.

Period: 07/01/05-06/30/10

Title: Self-Regulation Treatment for Pediatric Obesity
Funding: University of Minnesota Academic Health Center
Purpose: Evaluate the efficacy of an intervention to reduce eating in the absence of hunger in overweight children.

Period: 01/01/07-12/31/10

Title: Minnesota Heart Survey
 Funding: NIH / NHLBI
 Purpose: Conduct a population survey of 4,800 adults and 1,200 youth ages 8-17 to continue surveillance to detect current trends in cardiovascular disease risk factors.
 Period: 08/01/06-07/31/10

Title: Hispanic Community Health Survey- Nutrition Coordinating Center
 Funding: NIH through a subcontract with the University of North Carolina
 Purpose: The Nutrition Coordinating Center (NCC) will function as the nutrition reading center for the Hispanic Community Health Study. NCC will provide training, ongoing oversight, and procedures for the collection of two 24-hour dietary recalls from 4,000 study participants in four field centers in the U.S.
 Period: 10/01/06-03/31/13

Title: Preventing Childhood Obesity through Computer Tailored Guidance to Parents
 Funding: Viking Children's Fund
 Purpose: Create, test and evaluate a primary-care clinic based interactive computerized assessment system that will generate targeted recommendations for the prevention of obesity aimed at parents of children being seen for well-child checks.
 Period: 11/01/06-10/31/08

Title: Preventing Childhood Obesity through Improved Parental Perception of Child Weight Status
 Funding: University of Minnesota Obesity Prevention Center
 Purpose: Develop and evaluate a weight status report for provision to parents of preschool age children during well child visits.
 Period: 08/01/06-07/31/07

Title: Validation of Internet-based Dietary Assessment
 Funding: University of Minnesota TREC Center
 Purpose: To develop and evaluate a web-based 24-hour dietary recall questionnaire.
 Period: 04/01/06-03/31/07

Title: Environmental Intervention for Weight Gain Prevention
 Funding: NIDDK
 Purpose: Assess the efficacy of a multi-component environmental intervention in preventing weight gain among working adults.
 Period: 04/01/05-03/31/10

Title: Epidemiology of Cancer in a Cohort of Older Women
 Funding: NCI
 Purpose: Extension of follow-up of the Iowa Women's Health Study cohort, including linkage to Medicare records, to provide additional information on risk factors for and consequences of cancer.
 Period: 03/01/05-02/28/10

Title: Worksite Environmental Interventions for Weight Control
 Funding: NHLBI
 Purpose: The proposed study will evaluate the efficacy of a two-year, multi-component environmental intervention to prevent excess weight gain among 1200 bus drivers working in four garages in a major metropolitan area.
 Period: 09/30/04-09/29/08

Title: Food and Nutrition Systems for Research
 Funding: NHLBI
 Purpose: Continued support for the maintenance and enhancement of the Nutrition Data Systems for Research (NDS-R) software and the University of Minnesota nutrition Coordinating Center (NCC) food and Nutrient Database.
 Period: 07/01/04-06/30/09

Title: Epidemiology of Cancer in a Cohort of Older Women
 Funding: National Cancer Institute
 Purpose: Extend follow-up of cancer incidence and mortality in a cohort of women to further examine risk factors for incident cancers.
 Period: 03/01/00-02/28/05

Title: NDS-R Fluoride Component
 Agency: NIDCR

Purpose: Develop a national fluoride database and a standardized method for assessment of total fluoride intake.
 Period: 09/30/01-09/30/05

Title: Community Surveillance of CVD - Risk Factor Survey I
 Funding: NHLBI
 Purpose: Conduct a population survey of 4,000 adults to continue surveillance to detect current trends in cardiovascular disease risk factors.
 Period: 12/01/99-11/30/03

Title: Food and Nutrient Systems for Research
 Funding: NHLBI
 Purpose: This research intends to continue to provide an accurate, up-to-date food and nutrient database, and dietary data collection system.
 Period: 12/01/98-11/20/03

Title: 5 a Day Cafeteria Power Plus Program
 Funding: NCI
 Purpose: Test an intervention to increase fruit and vegetable intake of elementary school-aged children through changes in the school cafeteria.
 Period: 09/01/98-06/30/02

Title: Pathways - Full Scale Study
 Funding: NHLBI
 Purpose: School-based obesity prevention study for American Indian children living on reservations.
 Period: 09/01/93-08/31/01

Title: Distribution of Body Fat and Cancer Risk in Women
 Agency: NCI
 Purpose: Longitudinal investigation of mortality and cancer risk factors in 41,837 Iowa women aged 55-69 in 1986.
 Period: 05/10/95-02/28/00

Title: A Case Control Study of Pancreatic Cancer and Aromatic Amines
 Funding: NCI
 Purpose: Examine the independent and combined effects of arylamine acetylator status and N-oxidation status, cigarette smoking, and high meat consumption on subsequent risk of pancreatic cancer.
 Period: 09/16/93-11/30/99

Title: A Nutrition Data System for Research and Education
 Agency: NHLBI
 Purpose: Continue to provide an accurate, up-to-date food and nutrient database, and a dietary data collection system for use in clinical research and nutrition education.
 Period: 09/24/94-11/30/98

REVIEWS

Grant Reviewer

1999 USDA Food Assistance and Nutrition Research Program
 2000 National Dairy Council Grants Program
 2000 USDA Food Assistance and Nutrition Research Program
 2001 NIH, NIDDK RFA DK-00-017 (Ancillary Studies in Conjunction with Show Trial)
 2004 Grant Review Panel for National Cattlemen's Beef Association Research Program
 2005 Grant Review Panel Member, Pennsylvania State Department of Health
 2005 USDA Food Assistance and Nutrition Research Program
 2008 USDA Food Assistance and Nutrition Research Program
 2008 Robert Wood Johnson Foundation Healthy Eating Research Rapid Response Program
 2009 Robert Wood Johnson Foundation Healthy Eating Research Rapid Response Program
 2010 NIH, NCI PA for Improved Measures of Diet and Physical Activity
 2014 Canadian Cancer Society Innovation Grant Competition
 2016 NIH Review Committee for Fellowships (F31/ F32)
 2017 NIH Review Committee for SBIR applications

PROFESSIONAL OUTREACH ACTIVITIES

Service to Professional Organization

1999-2009	Nominating Committee (Chair), Association of the Faculties in Graduate Programs in Public Health Nutrition
1998	Organizing Committee Member, 1999 National Food and Nutrient Databank Conference
1999	Organizing Committee Member, 2000 National Food and Nutrient Databank Conference
2009-present	Steering Committee Member, National Food and Nutrient Databank Conference
2011	Organizing Committee Member, 2012 National Food and Nutrient Databank Conference
2012- 2013	Program Planning Committee Chair, 2013 National Food and Nutrient Databank Conference
2013-2015	Nominating Committee Member, National Nutrient Databank Conference
2017-2018	Local Arrangements Committee Chair, 2018 National Nutrient Databank Conference
2017-2018	Program Planning Committee Member, 2018 National Nutrient Databank Conference
2019-2021	Local Arrangements Committee Member, 2020 National Nutrient Databank Conference
2018-present	Treasurer, National Nutrient Databank Conference

Community Work and Consultations

2002	Harvard University, School of Public Health, Prevention Center. Invited Workshop Participant. Altering Obesity Trends: How Can We Link What We Know to What we Do?
2005	The Keystone Center and National Consortium for Specialized Secondary Schools of Mathematics, Science and Technology. Child and Adolescent Nutrition in America Policy Summit. Panel member
2005-2006	NIH Office of Dietary Supplements. Reviewer for the NIH Office of Dietary Supplement's Annual Bibliographies of Significant Advances in Dietary Supplement Research.
2007	Kaiser Permanente Foundation. Assisted in planning evaluation of point of purchase calorie labeling in employee cafeterias.
2007	BlueCross BlueShield of Minnesota. Assisted in planning evaluation of fruit and vegetable promotion campaign.
2007	Centers for Disease Control and Prevention. Member of CDC 2010 Physical Activity and Nutrition Study Expert Panel.
2008	Hennepin County Public Health Department. Provided input on community survey related to point of purchase calorie labeling in restaurants.
2008	Minnesota Department of Health. Assisted in analyzing data collected as part of a study to increase fruit and vegetable intake of preschool aged children.
2008	USDA Food Survey Research Group. Reviewed My Pyramid Equivalents Database, 2.0 for USDA Survey Foods, 2003-2004 (MPED 2:0)
2008	American Dietetic Association. Member of Task Force on Restaurant Nutrition Labeling Research
2008	International Society for Behavioral Nutrition and Physical Activity. Abstract reviewer
2008	International Conference on Diet and Activity Methods. Abstract reviewer
2009	Minnesota Department of Health (assist in planning evaluation of the USDA Fresh Fruit and Vegetable School program)
2008-2009	Robert Wood Johnson Foundation Healthy Eating Research Program. Restaurant Nutrition Labeling Scientific Advisory Committee member
2008-2009	Institute of Medicine, Food and Nutrition Board. Member of Committee to Review the National School Lunch Program and School Breakfast Program Meal Patterns and Nutrient Standards
2009-2012	Minneapolis Heart Institute Foundation. Provide guidance on development of the restaurant component of the Heart of New Ulm project.
2009	New York University. Reviewed study questionnaires and procedures for an NIH funded study to evaluate point of purchase calorie labeling in restaurants.
2010	Parents in Community Action (PICA). Provided a presentation to PICA Head Start Center kitchen staff about serving nutritious meals to preschool aged children.
2011	RAND Corporation. Member of planning committee for conference "Performance Standards for Away from Home Meals."
2010-2011	Minnesota Department of Health. Provided advice on intervention and evaluation components of Great Trays, a CDC funded project to improve school meals in Minnesota.
2013	Hudson Institute. Provided advice on nutrition standards for grocery store foods.
2013-2014	Branded Food Product Database for Public Health Public-Private Partnership Data Quality Subgroup member.
2013-2014	California Food Policy Advocates. Providing advice on designing a study to evaluate changes to the Supplemental Nutrition Assistance Program (SNAP).
2016	Healthy Foods Healthy Lives Food Skills Assessment Workshop participant
2017	Academy of Nutrition and Dietetics Farm Bill Work Group member
2019	Leadership Team Member, 2030 Diabetes/CVD Minnesota State Plan
2019	Advisory Committee for the Healthy Retail Research Convening Meeting
2020-2021	University of Pennsylvania Fruit and Vegetable Incentives study consultant

UNIVERSITY OF MINNESOTA COMMITTEE SERVICE

Division of Epidemiology and Community Health

1998-2000	Public Health Nutrition MPH Comprehensive Exam Review Committee
1998-2000	Computer Services Committee
1998-2010	Research/Awards Committee (Chair 2004-2008)
1998-2005	Public Health Nutrition MPH Recruitment Strategies Committee (Chair)
1999	Epidemiology MPH Program Review Committee
1999-2000	Research/Awards Committee
2001-2002	Division of Epidemiology Web Committee
2002-2003	Faculty Advisory Committee
2001-2002	Public Health Nutrition Curriculum Committee
2003-2004	Public Health Nutrition Nutritional Epidemiology Committee
2003-2006	Epidemiology PhD Exam Committee: Part B
2004-2005	Search Committee for Obesity Prevention Assistant Professor positions
2004	Faculty Evaluation Committee
2005-2006	Public Health Nutrition Program Admissions Committee
2007-2008	PhD Track Conversion Committee
2007-2008	Public Health Nutrition Curriculum Review/ Credentials Committee
2008-2011	Epidemiology MPH Admissions Committee
2008-2010	Data Safety Monitor. New Moves Study
2010-2013	Data Safety Monitor. Box Lunch Study
2013-2015	Budget Building Committee Member
2014- 2015	JB Hawley Student Research Awards Committee Member
2015-2017	Member, Faculty Executive Committee
2016-2020	Chair, Public Health Nutrition Faculty Search Committee
2011-present	Public Health Nutrition Admissions Committee
2017-present	Philanthropy Committee
2018-present	Undergraduate Education Committee

School of Public Health

1999-2002	School of Public Health Faculty Consultative Committee
1999-2002	School of Public Health Policy Council
2003-2004	Research Committee (Chair)
2009-2010	DrPH Ad Hoc Committee
2011-2013	Academic Promotion and Tenure Committee (Chair, 2012; present)
2012 – 2014	Faculty Salary Equity Committee

Other University of Minnesota

2002	Academic Health Center Faculty Research Development Grants Review Committee
2002	Academic Health Center Seed Grants Review Committee
2006	Obesity Consortium Pilot Project Review Committee
2012- 2014	Food Policy Research Center Steering Committee Member

Cumulative Teaching Experiences at the University of Minnesota

Course	Terms	Credits	Role
Dietary Assessment (PubH 5907)	1999 (SSI)	1	Sole Instructor
