- * Member of the Multicultural Involvement Committee of the Association for the Advancement of Health Educators 1997-2000.
- * Harvard School of Public Health, Telecommunication presenter, 1999.
- * Appointed to the Indian Health Service Health Education curriculum review team, 1997.
- * Appointed to the Governor's Council for physical fitness for older adults, 1996-1999.
- * Presenter at the National Convention of the American Alliance of Health, Physical Education, Recreation and Dance, 1991-92, 1995-8.
- * Minnesota Representative for the American College of Sports Medicine's Governmental Committee, 1992,3,4,5,6,7.
- * Testified at the State of Minnesota's hearing on managed care, 1995 & 1996.

- * Testified at the U.S. Senate Regional Meeting for Health Care issues, Bemidji, MN advocating for changes in the current health care delivery systems, 1996.
- * Elected representative to the Council of Sections, National Assembly on School-Based Health Care, 1995-96.
- * Instrumental in the policy development for physician reimbursement for services in non-Indian facilities - results in major funding for IHS and Tribal Health services across the country, 1996.
- * Testified at the Regional Meeting for Health Care Reform, Billings, MT, promoting needs and concerns of the Reservation's constituents, 1995.
- * Presenter at the Annual Association for the Advancement of Health Education, 1995.
- * Author of "The Greater Leech Lake Health Care and Wellness System Project". This document was prepared to address reservation Indian health care issues and needs under the auspices of: P.L. 102-573, *Sec. 307 (a) HEALTH CARE DEMONSTRATION PROJECTS*. This \$13,396,779 annual budget, 226 page proposal was presented to the Indian Health Service in Rockville, Maryland, January 19, 1994.
- * Participated in the Rural Health Care Summit '94, St. Cloud, representing Reservation interests and advocating for Indian rights.
- * Pioneered the establishment of channels of communication and assistance for rural health issues with the State of Minnesota Department of Health, Office of Rural Health, and the University of Minnesota Department of Rural Health, 1993-95.
- * Broke ground for new cooperation's between regional public sector health care providers, the Indian Health Service, and the Leech Lake Tribal Health Division, by establishing an avenue for networking with these organizations, 1993-94.
- * Presenter at the National Therapeutic Recreation Society Convention, "Older Developmentally Disabled Adults and Leisure: Issues, Problems and Practice", 1992.
- * Presenter at the National Conference on Aging, 1991.
- * Honored as a member of Who's Who among Human Service Professionals, 1991-2002.
- * Speaker at the American College of Sports Medicine's annual Northland Chapter Meeting, 1992.
- * Honored as a member of Who's Who of American Women, 1994-2002.
- * Consultant for a Bush Grant Study at the University of North Dakota, 1990.
- * Speaker at various community and state meetings, advocating for health care and use of the public health model in rural areas.
- * Speaker for various national organizations concerning health services policy, rural health, American Indian health, exercise, nutrition, sport psychology, physiology, adult aging, adult development, health education, public health, and non-traditional careers for Women.

Research Support

Systems of Care, Nak-Nu-Wit Project, Substance Abuse Mental Health Service Administration
Principal Investigator: Linda D. Frizzell, Ph.D.

Project Director: Linda D. Frizzell, Ph.D.

Budget: \$10,000,000

Duration: 9/30/2008 – 9/29/2014

Grant Number: 1U79SM058513

Summary: Project was designed to break down the barriers for Portland (OR) American Indians individuals and families to access child-serving systems, for children with serious emotional and behavioral disorders that require highly individualized treatment plans that

integrate and coordinate services delivered by several different providers. System of Care is more than an association of services and supports. It represents a philosophy about the way in which services should be delivered to children and their families. The Project embraced interagency collaboration, family driven and youth guided decision making, individualized, strengths-based and culturally competent care, community-based services and accountability.

Walking at School: American Indian Children Walking for Health

Principal Investigator: Don Bishop, Ph.D.

Consultant: Linda D. Frizzell, Ph.D. and others

Supported by NIH: 1R01DK63387

Agency: Minnesota Department of Health, in collaboration with the Red Lake School District, Red Lake Band of Chippewa Indians, Cass Lake School District, Leech Lake Band of Ojibwe.

Started: 2002-2006

Summary: The aim of the project is to assess the feasibility and initial effects of a school-based environmental change for increasing physical activity among American Indian children to reduce their risk of obesity.

Metabolic Cost of Traditional American Indian Activities in Women over 40 years of Age.

Principal Investigator: Murial Gilman, Co-Investigators: D.H. Houle, L.D. Frizzell, K. Headbird, and B.E. Ainsworth.

Agency: Bemidji State University and the University of South Carolina

Supported by NIH: WHI-SIP 22W-U48/CCU 409664-03

Date: 1999-2001

The purpose of this two-part study was to determine if Jingle Dress Dancing and harvesting wild rice are moderate-intensity physical activities. Using criteria that moderate activity is 3-6 METs, it was concluded that Jingle Dress Dancing and harvesting wild rice are moderate activities and can contribute physically active lifestyles and help American Indian women prevent hypokinetic disease.

Cross Cultural Activity Participation Survey (CAPS) Research Project.

Principal Investigator: B.E. Ainsworth, others including L.D. Frizzell

Agency: Bemidji State University and the University of South Carolina

Supported by NIH: WHI-SIP 22W-U48/CCU 409664-03

Date: 1999-2001

The purpose of this study was to determine if a survey tool administered one to one to participants would be culturally sensitive to accurately measure the METs expended of all physical activity during the course of a regular week. Subjects were counseled to improve or maintain their physical activities (to national standards of exercise formula, i.e. 30 min. most days), once a week for 14 weeks with the survey tool administered a total of four times.

Emergence of Community-Acquired Methicillin-Resistant Staphylococcus aureus in a Rural American Indian Community, identified a high prevalence of community-acquired

methicillin-resistant *Staphylococcus aureus* (MRSA) infection among patients at the Greater Leech Lake Service Unit, Leech Lake Reservation, 1996-1999.

Principal Investigator: Amy V. Groom and others

Agency: Indian Health Service, HQW, Epidemiology Program, Albuquerque, NM.

Site advisor: Linda D. Frizzell

Assessment of the Epidemiology of Community-Acquired Methicillin-Resistant Staphylococcus aureus in a Rural American Indian Community

Principal Investigator: Amy V. Groom and others

Agency: Indian Health Service, HQW, Epidemiology Program, Albuquerque, NM and the Leech Lake Reservation.

Started: 1999-2000

Site Director: Linda D. Frizzell

Summary: Previous research has identified a high prevalence of community-acquired methicillin-resistant *Staphylococcus aureus* (MRSA) infection among patients at the Greater Leech Lake Service Unit facility. Little is known, however, about the colonization rates of MRSA in the community, and community transmission patterns and risk factors associated with MRSA infection.
